PROJECTS

College Discovery Platform | Next.js, TypeScript, Tailwind CSS

Built a responsive web app for students to search and explore colleges with a clean, type-safe component-driven architecture, deployed on Vercel.

Outreach Pipeline | Python

Automated a 4-stage cold outreach pipeline integrating Ocean.io, Prospeo, EazyReach, and Brevo APIs to go from a seed domain to sent emails with zero manual effort.

Prompt Tester App | React, TypeScript, TailwindCSS, Google Gemini API

Built an open-source AI prompt playground with real-time token usage and response time tracking, with secure server-side API key handling.

ShareOn Landing Page | React 18, TypeScript, Vite, Tailwind CSS, Supabase

Developed a marketing landing page for an AI personal branding SaaS with waitlist integration via Supabase, deployed on Bolt.
